### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Paul John Parins, on 30-NOV-2004.

The application has been amended as follows:

In claim 12, line 3, the term "(hot)" has been substituted by -- hot --.

Non-elected claims 13-15 have been canceled.

#### *Allowable Subject Matter*

Claims 1-4 and 6-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a process of making an antimicrobial plastic body comprising a step of treating a precursor with a metal colloid before molding. In general, the prior art teaches treating a formed product with a metal colloid for an antimicrobial affect. The closest prior art, JP 40812770 A, of record teaches adding an antimicrobial agent (including colloidal silver) to a molding composition but lacks a positive step of "treating the precursor/polymer" rather it appears the antimicrobial agent is added in a similar manner as other components.

Art Unit: 1732

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
